Knowledge and Skills

- *Good at:*
 - OOP.
 - Java programming.
 - Android programming.
 - Basic PHP Programming.
 - Basic Photoshop.
 - English: Conversational level, good at reading, writing.
 - TOEIC: 710 (05/2014).
- *Have experience in :*
 - Developing apps using Android Studio and Eclipse.
 - Developing apps for devices with different OSs and different screen sizes.
 - Json/XML Webservice.

I am an over 2 years-experience Android developer. I have worked for several app and game projects on Android platform. I'm good at both team and individual working. I'm good at English communication and I also have a little experience in project management. I am a humble and hard-working person. I like working and I always try to improve creativeness and effectiveness on my work day by day. I can work in high pressure environment. To me, being responsible with my work is the most important thing when doing something. Therefore I always try my best to assure that my project will be delivered on time. I never give up against any problem and always very enthusiastic in supporting my teammates and my customers. I always dream to be an expert in my field and create so many great apps in the future. That's why I will try hard and harder until when I archive my dream. I don't have much free time and I spend it mostly on reading news on the internet or sometimes go out with my friends. My technology idol is Bill Gates. My favorite book is Adam Khoo's "I am gifted, so are you". My favorite sports are football, table tennis, badminton, swimming. I don't play electronic games much but I'm good at some games like FIFA, PES, AoE and sometimes I play them with my friends for fun and relaxing.
