PROFESSIONAL SUMMARY

I am passionate about IT and I can quickly learn a new programming language or a new technique. For team-working, I am an open-minded individual and I can work well with others team-members. I have experience in developing ASP web and mobile app and have good understanding about OOP and MVC framework. I have known and used Ruby on Rails, so I am very interested in Ruby on Rails and was impressed about your company's Ruby on Rails. I can proudly say that your company is the best place for me to study, to work and personal development in the future to bring the best benefits for your company.

WORK EXPERIENCE

December 2014 - Now	**AOI Systems Vietnam** Software Developer In Mobile Team, I'm assigned to develop application for iOS and Android using social network api such as Facebook, Twitter and Google. In Web Team, I investigate NodeJS (SailsJS framework) and CakePHP to develop my functions that I am assigned.
December 2011 - February 2012	**Hoang Khang Incotech** Web Developer As a developer, I investigate and develop new feature of application. Full stack development, I'm assigned functions list of website, and after that I designed datatase, designed template HTML and developed back-end and front-end with .NET MVC
