Nguyen Quang Dieu

Junior Software Developer

No 36, 210 lane, 41 alley, Doi Can street, Ba Dinh district, Ha Noi, Vietnam - +84 166 324 0092 – pht.quangdieu@gmail.com

Profile

My primary goal is to apply my technical expertise all throughout the full software life cycle to ensure production and delivery of products and services that meet client specifications. Along with a competent software developing team, and with strong personal knowledge, skills, and experience in software engineering, I am positive that this goal can be achieved. My experience as junior software developer enhanced my abilities in designing, implementing, testing, and upgrading software. One of my objectives is to keep updated with the latest IT trends and technologies. I am confident that if given the opportunity, I can be a useful talent to the company.

Skills and Competencies

- Hands-on experience in developing codes for software applications
- Sound knowledge of C, C++, C#, HTML, Java, MIPS and Ocaml.
- Extensive knowledge of application architecture principals
- Familiarity with database design and development
- Ability to develop Graphical User Interfaces
- Ability to develop data structures and algorithms

Experience

Junior Software Developer
HUST Lab.

2015 - Present

- Developing front-end and back-end applications in C#.
- Developing technical specifications and coding documentations for new projects.
- Working with Business Analyst and Architects to develop applications based on project requirements.
- Implementing best coding practices to improve project effectiveness.
- Participating in creating project plan and release plan.
- Coordinating with Tester to test and debug software applications.
