OBJECTIVE

To me, programming is not only a career, but also my passion. Therefore, my goal is to become a professional engineer. Besides, I'm extremely impressed by Japanese cultural landscapes and I hope to study as well as work there in the near future. So I would like to have work hard at a professional environment that can help improve my programming skills and the ability to communicate in Japanese as well.

TECHNICAL SKILLS

- Languages : .Net (4 months experience) ,PHP , Java (Desktop) , C++ , C#
- Databases : MySQL , MS SQL
- Web Development : HTML, CSS, JavaScript, JQuery, Ajax

PERSONAL SKILLS

- Working independently and in group also
- Responsible for my work
- Finishing my work in time
- Getting on well with the new environment quickly.

LANGUAGE SKILLS

	Excellence	*Good*	*Fair*	*Poor*
Japanese (N4)	[�×]	[�×]	[✓]	[�×]
